## GP-Grip LITE Instructions

watch video [gpc.us/installation](http://gpc.us/installation)

**Step 1** Mount the handle to the strap end with the Velcro loop

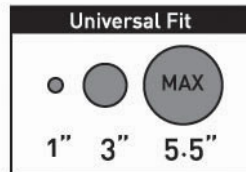

**Step 2** Wrap the straps through the handle and mount it to the roll bar

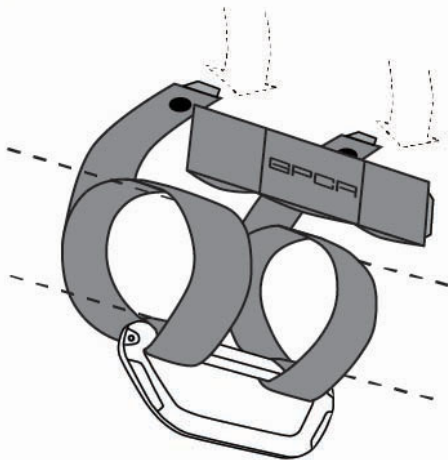

Adjust according to your roll bar diameter

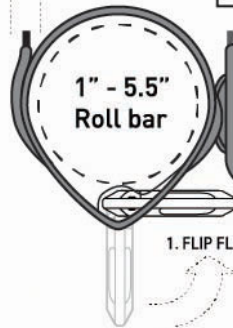

**NOTE** GP-Grip adjusts to fit 1"-5.5" diameter roll bar or anything you need a handle to grab. Be creative!

**Step 3** Now flip the handle flat and then pull to tighten the straps for best foldability. After the adjustment, guide the straps through the back loops of the MOLLE strap, pull tight and press the Velcro area.

2. TIGHTEN

GPCA Utility Uase can be mounted to the MOLLE strap (Optional)

1. FLIP FLAT FIRST

**NOTE** Flip the handle flat and tighten the strap periodically to tight-fit the folded grab handle. These handles are built with outdoor-grade materials. Wipe clean occasionally for a long-lasting use.

## GP-Back-Grip Instructions

watch video [gpc.us/installation](http://gpc.us/installation)

**Step 1** Make sure the extended end under the top ring is between the headrest bar and the metal handle to avoid metal scratching

**Step 2** Plug the headrest poles through the holes
